Autism Spectrum Disorders

Course Overview:

Children, youth, and adults with Autism Spectrum Disorders (ASDs) are amongst the most interesting people you will ever meet. *Autism Spectrum Disorders* will help you understand how ASD affects the daily lives of individuals with ASD, and assist you in looking for ways to educate, support, and accommodate the people you will care for as a respite provider.

Who Should Take the Course?

This module is designed for all individuals that wish to become respite supporters, or those who wish to gain a base knowledge of how ASD affects individuals in their daily lives.

Course Objectives:

The purpose of this module is to provide a foundation that you can build upon when understanding the best ways to provide respite support.

In this module you will learn to:

- Define Autism Spectrum Disorders (ASDs)
- Appreciate the range of abilities someone with ASD has
- Understand how ASD affects individuals in their daily lives

Evaluation Process:

At the end of this module, there is a test. Participants that do not achieve 75% can review the module content and try as many times as necessary to advance and complete the course.

Upon successfully completing this module, there is a printable certificate for your records.

Course Duration:

This online module is self-paced. Participants may leave the module at anytime and can resume at any time to complete. The duration will depend on the individual participant and their prior knowledge of the subject matter. On average, the module will take approximately 1 hour to complete.
